Report of the Board of Health

For the Town of Canaan for 1900—1901.

An epidemic of measles, in the spring, fall and summer of 1900, of a very mild form, no deaths and no bad after effects, so far as we have been able to learn, is something very unusual, for, notwithstanding the general belief, measles destroys more lives every year than scarletina, a disease so much dreaded in the past years.

Three cases of scarletina, brought here from Concord, were also of a mild type, and, with a little care, were not allowed to get outside the house and family where formed.

Influenza, or grippe, has been prevalent this winter, but not so severe, or prostrating, as in years gone by. With these exceptions the town has been free from disease, that "wasteth at noon day, and maketh us afraid at night."

A matter of the utmost importance to every inhabitant of Canaan, whether old or young, is that of vaccination against small pox, for, while the cases reported every few days in this and neighboring states, have been mild, so that a great many of them have been called chicken pox, the next outbreak may be so virulent that nothing can stay its progress, and many precious lives be lost. The insurance companies do not issue a clean policy to an applicant who has not been successfully vaccinated, and can we afford to do less for our families?

The proper authorities should enforce the law and not allow a child in school without a certificate showing vaccination as towns around us are doing.

While it has been proved beyond the shadow of a doubt that typhoid fever has been contracted by impure drinking water, and lives sacrificed thereby, it will at once be apparent to all that we cannot be too careful about our water supply, whether from lake, spring or well ; and here we will say that we hope a bill before the Legislature will become a law, i. e., to establish a bacteriological and chemical laboratory for examination of water and specimens, and every citizen will be benefited by an examination of his water. in well or springs, if thought to be impure, as well as food, drugs, &c., &c.

Respectfully submitted,

E. M. TUCKER, Secretary.
